

IN THE TITLE

Please amend the title as set forth below:

A NETWORKED MESSAGE DELIVERY SYSTEM

IN THE SPECIFICATION

Please amend the paragraph within the specification beginning page page 1, line 10 with the following:

An example of such a system ~~is described in European patent application EP-A-0 944 002 which~~ provides a communications method and a communications network comprising a server and a plurality of user terminals. The user terminals can share information with each other and with the server by means of an interconnecting network, especially the Internet. On the server, a profile database is provided containing data representing a characteristic behavior of associated user addresses. The server automatically acquires this representative data in response to activities performed by the associated users of the network, which data is stored with the associated user addresses in the profile database n the server.
